TECHNICAL SKILLS

Front-End

HTML, CSS, Tailwind, Javascript, React, React Query, Redux

Back-End

NodeJS, ExpressJS, MongoDB with Mongoose, Electron

Tools & Platforms

Firebase, Vite, Vercel, Figma, Postman, Git

EDUCATION

Software Engineer with JavaScript SoftUni

01/2024 - Present

PERSONAL PROJECTS

BookSwap (03/2025 - 04/2025)

- Platform to sell, trade, or donate books. Created as a final project for a React course with Firebase Firestore, Realtime Listener for chats and Cloud Storage for images.

Versacore (03/2025 - Present)

- Multi-purpose server in Express.js with persistent data using MongoDB & Mongoose, CRUD operations on collections, and live chat with Socket.io.

VibeChat (03/2025 - Present)

- React chatroom app with Versacore for back-end. Working on adding Redux for global states and TanStack Query for data fetching.

The Drink Deck (12/2024 - 03/2025)

- Simple SPA for drink recipes, written in JS with Lit-HTML, Page.js, Vite, Firebase Hosting and Real Time Database.

CERTIFICATES

ReactJS

Components, props, state, hooks, context, routing, and scalable UI design with modern best practices.

Back-End

Skilled in Node.js, Express, MongoDB, sessions, auth, validation, and error handling for secure, reliable back-end development.

JS Applications

Built dynamic web apps using REST, async programming, SPA architecture, client-side rendering, routing, testing, and modular design.

JS Advanced

Strong JavaScript skills: syntax, DOM, events, OOP, advanced functions, unit testing, and best practices for interactive web development.

LANGUAGES

Bulgarian

Native or Bilingual Proficiency

English

Full Professional Proficiency
